

e-Learning

Basics in Fluid Flow

E-Learning: Centrifugal Pumps & Positive Displacement Pumps

0 day
Overview

PC1E-EN-E

LEVEL

Skilled

PURPOSE

This e-learning module provides basic information on fluid flow basics.

These modules are integrated into some of our Blended Learning courses but can also be followed independently.

For any information please contact us at the following address:
contact@ifptraining.com

LEARNING OBJECTIVES

Upon completion of the course, participants will be able to explain basics concepts in hydrodynamics of pumping systems.

LEARNING ASSESSMENT

Quiz.

PREREQUISITES

Provide evidence of a professional experience of at least 1 month related to the concerned field.

Agenda

FLUID FLOW FOR PUMPS

Energy units, friction losses calculation, system curve assessment, operating point control with system curve control.
